Good Communication skills

Time Manager Team Worker

Adaptable Flexible Quick Learner

LANGUAGES

English

Proficient

Arabic

Native

STRENGTHS

High EQ and Critical Thinking

I acquired it through communicating and helping people around me solve any issues facing them.

I can know where is the problem and search for it's solution.

ACHIEVEMENTS

Getting a scholarship from the Egyptian Ministry of Communications and Information Technology

It was a tough process shifting career from civil engineering to software engineering and acquiring that scholarship. It consists of an extensive course: Java, kotlin, Android, and Flutter. Furthermore, there are classes for English, soft skills and freelancing.

Getting a Certificate for Teaching English

I am proud of it because I love learning languages as a hobby and I managed to increase my English proficiency level to teaching level.
